Bloom Edition.

One More Thing: In celebration of the sparks that bloom above Sumida's waterways, we bring you this limited blend. And the sparks aren't the only thing blooming this year. It's full swing for Japan; travel back on the cards, businesses are flourishing and summer is here. And what better way to represent coming together again than the artwork on our bag by Australian Japanese artist, Kazuki Komatsu. Shining as brightly as the notes of rambutan, rose syrup and yuzu, sparkling in this coffee.
