REGION SPOTLIGHT ON:

Limmu ETHIOPIA

The western coffee growing regions of Ethiopia are known for being dry & arid, perfect for producing the dry-processed Naturals the region is famous for. Freshly harvested coffee cherries are submerged in water, where the high quality dense coffees that sink to the bottom are selected to be sun-dried, developing their hallmark clean, fruity notes.

ROBUR/MYTHOS:

21g in / 39g out / 30 sec

This recipe is a great starting point, but as you know there's rarely a one size fits all solution to coffee! Feel free to adjust as required.
