

KAROGOTO

KENYA SWEET FINISH!

TASTE: Sparkling finger lime, raspberry & a sweet honey finish

VARIETY: SL 28/ SL 34

PROCESS: Washed

ORIGIN: Nyeri District

PRODUCER: Tekangu Farmers Cooperative Society

ALTITUDE: 1700-1900m

CROP: Jan 2017

ONE MORE THING: Ah the versatility of Kenyan coffees! Incredible flavours & textures at lighter roasts, plus, like we have on this Karogoto, they'll let you go into a more developed roast & will reward you with juicier fruits like only Kenyan coffees can. Enjoy this harvest, from one of three washing stations operated by the Tekangu Farmers Cooperative Society, which drew our attention on a recent Kenya sourcing trip. We hope its bright fruit flavours bring a sweet finish to your year!
