This cup is chokkas with a rainbow of citrus tastes; with zesty lemon, grapefruit & mandarin orange syrup set to do the *Loco-motion* across your palate. In other words, it's a brilliant example of the refreshing acidity that Kenyan coffees are famed for. Ripe picked coffee is same-day delivered, wet-fermented overnight (to break down sugars) & washed with Ragatti river water before being moved to raised drying beds. All a-board!
