1700m

ONE MORE THING: Coffee is our biz, but it's also made its way from our veins to our DNA. Similarly, Aroma del Valle, a producer group from Northern Peru, shows us how coffee can change lives from the inside out. Through the development of a top-notch product, producers gain economic, social & personal growth. This one's coming through bright & tropical as espresso. Makes sense, espresso is thicker than water!
