ONE MORE THING: This coffee is the definition of what makes high-altitude coffees so damn tasty. Not only that, but it's also from the best growing area in Yirgacheffe. On the brew, you'll take in aromas of fragrant jasmine, followed by the taste of sweet, juicy, syrupy peach nectar. It's near intoxicating stuff & we're lovin' it as a delicate espresso or as pourover. Two words: high & mighty.
