ONE MORE THING: Next up in our Honduras Small Lot Series is the delicious Pascal, from José Andrés Pascual Benitez. Jose grew up in and around coffee, working on his family farm in his early years, and cultivating skills in specialty by growing small lots of several varieties and creating a nursery to later expand the farm. From age 35, he's fully dedicated himself to coffee, buying more land, purchasing two mules to carry the coffee from the farm to his house, and investing in a pulping machine and a concrete drying patio for managing the processing too. Lap up this gem, the last coffee in this year's Honduras Small Lot Series.
