ONE MORE THING: You may remember this charmer from last year. It comes from the Dumerso Washing Station, where over 800 smallholder coffee growers deliver their cherry to be hand-sorted and floated down long tanks, ensuring only the very best and heaviest cherries are selected for this Grade 1 lot. Tasting notes of peach, toffee and finger lime make this coffee a particularly welcome returner. After just one taste, you'll be coming back for seconds, and even thirds.
