**ONE MORE THING:** The Aricha washing station has got it going on, with the production of both washed and natural coffees to an exceptional standard. This year we nabbed the bright and sweet washed process. It's been grown on farms surrounding the station, which are some of the highest coffee growing areas in Yirgacheffe. You can taste the quality in the cup as a result of meticulous hand sorting at the mill, incentivised by paying more for ripe cherry. Specialty coffee at its best.
