ONE MORE THING: Sometimes it takes a village to raise a good coffee. Sprawling Tanzania's Southern Highlands, many small-scale farmers across a network of washing stations and coops have joined forces to create Tanzania Korongo. This year's crop showcases the best of this region, with sticky sweet mandarin & rooibos tea notes. Just like a great team, there's no "I" in Korongo. Enjoy and stay tuned for more Tanzania lots on their way.
